## PRESS RELEASE

### Product Info

---

---

**Wayne, NJ— January 4, 2005**—Cardinal Components Inc. announces its latest distribution partnership with Dependable Component Supply. DCS has been in business for over 16 years and distributes a wide range of electronic components from crystals and oscillators to integrated circuits. DCS is headquartered in Deerfield Beach, Florida.

Dependable Component Supply has four locations worldwide, Brazil([brazil@dependonus.com](mailto:brazil@dependonus.com)), Mexico([quadalajara@dependonus.com](mailto:quadalajara@dependonus.com)), Malaysia([malaysia@dependonus.com](mailto:malaysia@dependonus.com)), and the United States. Logistically, this provides Cardinal a sales channel into valuable foreign markets. Value added services provided by DCS include bar coding, JIT deliveries, EDI capabilities, and the programming of Cardinals line of ultra-low jitter programmable oscillators(CPP series). To purchase Cardinals complete line of fixed frequency devices and programmable crystal oscillators, TCXO's, VCXO's, VCTCXO's, and multifrequency products, you may contact DCS at [sales@dependonus.com](mailto:sales@dependonus.com) or dial 1-800-336-7100.

To learn more about Cardinal Components, Inc. and its full offering of timing devices, visit there website at [www.cardinalxtal.com](http://www.cardinalxtal.com) or contact Tom Ferron at 973-785-1333.
