## PRESS RELEASE

### CARDINAL COMPONENTS INC. INTRODUCES A SURFACE MOUNT 5 X 7 MM TCXO

---

---

Wayne, NJ—June 4, 2001—Cardinal Components, Inc., a broad-line crystal and oscillator manufacturer, has introduced a new series of temperature-controlled oscillators called the CTX7. The CTX7 measures 5mm x 7mm and only 1.8mm in height. It is targeted for applications that require tight frequency stability  $\pm 2.5$  ppm over the operating temperature range and where space is a premium.

Located in Wayne, New Jersey, Cardinal is an ISO-9000 certified company with a corporate philosophy of providing the highest quality crystal and oscillator components at very competitive prices. For more information regarding our products or company, please visit [www.cardinalxtal.com](http://www.cardinalxtal.com) or contact James Magos, 973-785-1333 ext 505.
