PRESS RELEASE

CARDINAL COMPONENTS, INC., THE ADDITION OF JAMECO ELECTRONICS AS AN AUTHORIZED DISTRIBUTOR

Wayne, NJ — July 11, 2014 — Cardinal Components, Inc., a world leader in the manufacturing of programmable oscillators, solid state batteries and IOT module-based electronics solutions, has entered into a distributor agreement with Jameco Electronics.

Jameco has been a leading electronic components distributor for 40 years and served millions of customers ranging from businesses to educational institutions to hobbyists. It has built a strong reputation for giving customers a true choice by offering more than 50,000 products of the industry's most popular brand name components, as well as a large selection of in-stock house and generic brands.

What sets Jameco apart is its ability to offer the lowest possible price to everyone –giving individuals and small businesses the same competitive pricing typically reserved for the highest volume buyers. Jameco is privately owned, debt free and financially strong. It is the kind of company that you want to work with.

According to James Magos COO of Cardinal, the addition of Jameco servicing the newly emerging customer base in hobbyists, DIY, makers, educators and design engineers. Jameco is a hobbyist driven, DIY (do-it-yourself) electronics projects site for electronics designers and enthusiasts to discover, discuss, develop, evaluate and purchase kits. This is a good match for Cardinal's line of products including our new development and evaluation boards targeting the DIY/Hobbyist community, who are looking to develop IOT enabled products.

According to Gil Orozco Vice President of Product Marketing and Technical Support, Cardinal board line of programmable XO, TCXO, VCXO, Solid State Batteries and Real Time Plus products integrating (RTC, EnerChip™ solid state Battery, battery management, recharging circuit and integrated crystal) help service the demand of our unique customer base.

You can learn more about Jameco Electronics by visiting their web site at www.JAMECO.com / or by contacting Gil Orozco, Vice President of Product Marketing at Jameco.

You can learn more about Cardinal Components, Inc., and Cardinal's additional products by visiting their website at www.cardinalxtal.com or by contacting James Magos COO at Cardinal.
