

**Date:**

October 7, 2014

**Subject:**

Ozone Depleting Substances (ODS) are internationally regulated by the Montreal Protocol of 1987 and its succession amendments. These are implemented into European legislation by the regulation EC 1005/2009 on substances that deplete the ozone layer, valid from 1.1.2010. This regulation supersedes the former regulation EC 2037/2000

**Compliance:**

Cardinal Components products do not contain ozone depleting substances and we do not use ozone depleting substances to manufacture our products.

A handwritten signature in black ink, appearing to read "E. Carl Fabend", is written over a horizontal line.
